

# How Long Before Flight Time Should You Be at JFK Airport for an Aer Lingus Flight?

If you're flying with Aer Lingus from John F. Kennedy International Airport (JFK), knowing the right arrival time is essential to avoid stress, delays, or even missing your flight.

## Recommended Arrival Time

For international flights like those operated by Aer Lingus:

- **Arrive at least 3 hours before departure.**  
This is the standard recommendation for international travel at JFK.

Arriving early ensures you have enough time for:

- Check-in and baggage drop
- Security screening (which can be busy at JFK)
- U.S. and international immigration checks
- Boarding procedures

## Why You Need Extra Time at JFK

JFK is one of the busiest airports in the United States, and Aer Lingus flights to Ireland are international departures. That means you may face:

- Longer security lines
- Additional document verification
- Passport control and customs procedures
- Possible terminal transfers

## Check-In and Boarding Tips

- **Online check-in** is usually available 24 hours before departure—use it to save time.
- **Bag drop deadlines** are typically 60–90 minutes before departure.
- **Boarding gates close early**, usually 20–30 minutes before takeoff.

### **When to Arrive Even Earlier**

You may want to arrive **3.5 to 4 hours early** if:

- You are checking multiple bags
- You are traveling during peak hours or holidays
- You need special assistance or have complex travel documents
- You are unfamiliar with JFK layout or terminals

### **Need Help with Your Aer Lingus Flight?**

For assistance with check-in, timing, or travel questions, you can contact support at:
